

## **Professor Dr. I. Konstantinou, Short Curriculum Vitae**

**Dr. I. Konstantinou**, Professor in Pollution Control and Environmental Protection Technologies, in the Department of Chemistry, University of Ioannina (DC-UOI). His scientific focus is on: a) Environmental catalysis and photocatalysis b) Environmental and Chemical Technologies for Pollution Control (Advanced Oxidation Processes (AOPs), adsorption, photolysis, separation processes; c) Synthesis and characterization of catalytic and adsorbent materials; d) Fate, physicochemical behaviour of pollutants in the environment (transport, adsorption, photodegradation, hydrolysis, etc.) and risk assessment; e) Development and application of analytical methods for the determination of pollutants and degradation products in catalytic processes and environmental media; f) Advanced mass spectrometric techniques (GC MS/MS, LC-MS-MS, HR-MS) for target analysis and structure elucidation; g) Green chemistry and Technology.

He has published more than 155 publications in international peer-reviewed high impact scientific journals (e.g. Appl. Catal. B: Environ., Environ. Sci. Technol., Chem. Eng. J., Water Res., etc.) and books of international publishers (Springer, Wiley, Taylor & Francis) that have received more than 9750 citations and has an H-index=43. He has communicated more than 200 communications in national and international conference and workshop proceedings. Finally, he holds two patents from the Hellenic Industrial Property Organization. He was the co-author of the book entitled "Instrumental Environmental Analysis" eds. Tziola (Greece). He has been participating in more than 31 national and European research projects. He was/is the supervisor of 7 Ph.D. theses and 20 MSc theses. Other activities include the following: He acts as a reviewer for more than 120 international peer-reviewed journals and for national (IKY, GSRT) and international research proposals (Israel, Croatia, Romania, Cyprus and Holland). He is a member of six national and international scientific associations and member of the organizing /scientific committee of more than 20 conferences.

Among other educational activities he teaches lessons in undergraduate and postgraduate level related to environmental pollution, chemical and environmental technologies, environmental catalysis and photocatalysis, chemical and physical processes. He participated in the examination jury of numerous PhDs and MSc diplomas in different departments and universities in Greece as well as in Europe (France, Italy, Ireland). He has been invited to present lectures and talks on Greek and European Universities and Conferences. He is currently a member of the Regional Council of Research and Innovation (PSEK) in Epirus region and member of coordination Committee of the Institute of Environment and Sustainable Development, University of Ioannina Research Center.
