

In order to support the continued growth of our business, DEMO S.A invests in a new Research & Development Laboratory in our premises in Salonica.

Do you possess working experience in Pharmaceutical Laboratories?

Are you experienced in method development and validation of analytical techniques such as HPLC, GC and UV-VIS?

Are you interested in working in Salonica?

Then we may have the right career opportunity for you

In this dynamic environment we are looking for a high caliber Analytical Supervisor for our **newly established R&D Laboratory in Salonica:**

R&D Analytical Supervisor

Main duties and responsibilities:

- Develop, optimize and qualify analytical methodologies
- Verify the raw data/records submitted by the analysts for its completeness, compliance with the requirements and its traceability before releasing the results.
- Direct troubleshooting of technical and scientific issues and ensure that the developed methods are fit for purpose.
- Review technical reports, summaries and protocols
- Support the development initiatives and training courses of team members as assigned.
- Effectively manage multiple projects and deliver on priorities
- Participate in lab audits and inspections, ensure laboratory compliance.
- Follow good laboratory practices (GLP), safety regulations and SOPs, maintaining thorough, complete, accurate and timely records of laboratory data.
- Undertake investigations during any incidents/deviations/change controls/OOS, identify root cause and develop appropriate action plans.
- Coach, guide and supervise a team of scientists in their daily working agenda

Experience, skills and qualifications required:

- Bachelor Degree in Chemistry, Pharmacy with post graduate studies (MSc / PhD) in Chemistry, Pharmacy or relevant field
- Minimum 3 years of experience in Pharmaceutical laboratory
- Working experience in method development and validation of common pharmaceutical analytical techniques such as HPLC, GC, UV-VIS
- Comprehensive understanding of global regulatory requirements
- Experience in leading & guiding a team will be considered as an asset
- Strong problem solving and ability to work independently
- Project management skills with focus on study deliverables, quality and timelines
- Excellent communication skills
- Fluent in Greek & English

The Company offers competitive remuneration, continuous learning and development opportunities, and a friendly and challenging working environment.
